Product Description

Product Description:

The material used in the construction of these bags is denim, which is a type of cotton fabric that is both durable and stylish. The fabric is strong enough to hold heavy items and can withstand the wear and tear of everyday use. These bags are perfect for those who want a bag that can last for years to come.

The Cotton Canvas Shopping Bags are available in two types of printing options: Silk Screen Printing and Digital Printing. Silk Screen Printing is a technique that involves pushing ink through a stencil onto the fabric. This method is perfect for creating bold and vibrant designs that will stand out. Digital Printing, on the other hand, involves printing a design directly onto the fabric using a computerized printer. This method is perfect for creating intricate designs with multiple colors.

These bags can be used for a variety of purposes, including shopping, promotional, and even as a gift bag. The self-cloth handle makes it easy to carry the bag around, even when it is fully loaded. The bags are also easy to clean and maintain, making them a great choice for those who want a bag that is both practical and stylish.
